VOLUME CONTENTS

1995 NUMBER 1

Ye. P. Afinogenov and **V. S. Komel'kov**	1	Dynamic barrier effect in breakdown of liquid dielectrics
D. Denzel	13	Planning of electrical power system operating conditions with consideration of power supply reliability
I. V. Yakimets and **V. G. Narovlyanskii**	21	Autotransformers with a voltage-stabilized tertiary winding
N. P. Semenov	31	Method for analysing the electromagnetic processes in a system consisting of an input filter, an autonomous voltage inverter and an induction machine
Ya. Z. Mesenzhnik, B. M. Tareyev and **L. Ya. Prut**	43	Mathematical models of insulation failures in submersible installations of electrically driven centrifugal oil pumps
F. A. Zykin	49	A device for measurement of magnetic flux, magnetomotive force and current
A. P. Kovalev, I. V. Belousenko, V. P. Mukha and **A. V. Shevchenko**	55	Reliability of overcurrent protection systems used in power supply networks in mines
A. A. Pertsev, L. A. Ryl'skaya and **S. P. Chistyakov**	65	Improvement in the durability of vacuum arc control devices with switching of the rated current
N. L. Arkhangel'skii, B. S. Kurnyshev and **P. A. Zakharov**	75	A tensor approach to the electromagnetic analysis of an induction motor
N. V. Varlamov	83	Optimization of a multistage pulse power system with magnetic compressors
P. A. Butyrin and **Chin Hung Lyan**	93	Analytical inversion of inductance matrices of electrical machine state equations
Quyen Huy Anh	105	A self-instructing expert system for controlling electrical power systems in emergency conditions
Yu. S. Zhelezko and **O. V. Savchenko**	111	Analysis of energy loss in power systems with reversal links between areas
A. N. Vostroknutov, V. G. Kleshchenko, V. P. Morozkin, R. S. Tsgoyev and **Yu. G. Shakaryan**	121	A two-level control system for an asynchronous electromechanical frequency converter
V. A. Martynov	131	Analysis of dynamic processes in inductive electromechanical devices
E. V. Kolesnikov	143	Skin effect in a cylindrical conductor in an external magnetic field
	i	List of papers not translated from *Elektrichestvo* Nos 1–3 1995

Ye. A. Ivanov and **N. Ya. Vyshinskaya**	1	Transfer of potential in an electrical network containing galvanically coupled sources of direct and alternating current
L. M. Makal'skii, A. V. Orlov and **A. G. Temnikov**	11	Influence of the magnetic field of a spark discharge on its formation and development
V. A. Kuznetsov and **A. I. Fedotov**	19	Mathematical model of a synchronous generator with a rectifier load
F. N. Sarapulov and **O. Yu. Sidorov**	29	Analysis of the electromagnetic characteristics of a linear induction motor allowing for magnetic circuit saturation
F. Veselka and **C. Ondrusek**	37	Improvement of the commutation characteristics of commutator-type electrical machines
S. M. Apollonskii and **V. T. Yerofeyenko**	43	Impedance boundary conditions for anisotropic bodies
V. A. Kaniskin, E. M. Kostenko and **A. I. Tadzhibayev**	53	A non-destructive method for determining the service life of polymer-insulated electric cables
A. F. Mukhsen, M. A. Belyayev and **V. I. Filimonov**	61	Variable time delay compensation in dynamic linear automatic control systems
B. I. Kuznetsov	67	Optimum damping of elastic oscillations in a double-armature linear synchronous motor
P. M. Fridman	75	Analysis of the output voltage of converters using single- and multiphase modulation
O. I. Kazakov	93	Detection of single failures in non-linear resistive circuits
S. Bjelic and **N. Jelic**	99	Area automatic control of voltage and reactive power using a multivariable approach
G. N. Aleksandrov and **Yu. A. Gerasimov**	121	Dielectric strength of overhead line insulators under overvoltage conditions
Yu. V. Smirnov	131	Optimization of industrial asynchronous drives with a cyclical impact load
M. E. Borisova, S. N. Koikov, M. S. Marchenko and **N. V. Severyukhina**	139	Evaluation of the parameters of dielectric non-homogeneity by analysis of absorption characteristics
	i	List of papers not translated from *Elektrichestvo* Nos 4–6 1995

S. G. Solodovnikov, V. A. Yagnov, S. A. Kravchenko, V. A. Vozdvizhenskii and **V. P. Ivanov**	1	Estimating the breaking capacity of vacuum switches
B. L. Aliyevskii, B. A. Bazarnov, V. A. Verbskii, V. D. Zharkov and **N. Ya. Chukayeva**	13	A unipolar generator with a bar armature winding for an autonomous electrical power supply system
A. B. Kuvaldin, N. F. Andryushin and **I. V. Zakharov**	25	Analysis of the electrical and energy parameters of a multilayer inductor with self-compensation of reactive power
D. I. Karpov, V. V. Lopatin and **M. D. Noskov**	33	Effect of high-conductivity barriers on dendrite development in a dielectric
M. M. Rezinkina and O. L. Rezinkin	39	Analysis of the distribution of three-dimensional electric field strength in a non-homogeneous dielectric
S. N. Kadnikov and **I. Ye. Shishkova**	47	Calculation of the capacity of a thin hyperboloidal segment
V. Z. Annenkov	53	Sparking zones and soil breakdown with lightning current spreading out from a solid earthing conductor
B. M. Antonov, A. A. Kuvshinov, B. D. Kurnosov, V. A. Labuntsov, N. S. Lazarev and **A. V. Stukachev** ✠	69	Characteristics and design of valve converters for superconducting magnetic energy storage devices
Ye. I. Yefimenko	85	Mathematical models of electrical machines with electromagnetic speed reduction
N. S. Prokurorov	99	Analytical solution of steady-state condition equations for an electrical power system
I. V. Yakimets, Yu. N. Astakhov, V. A. Labuntsov, I. Z. Gluzkin and **V. B. Mokhov**	109	Superconducting energy storage for Russian power systems
A. A. Potrebich	121	Methods for calculation of power losses in electrical supply networks
Yu. V. Smirnov	131	Optimization of controlled industrial drives with a cyclical shock load
G. B. Gol'fel'd	139	Analysis of the spectra of non-steady fluctuations in self-commutated inverters
S. G. Boyev, S. A. Lopatkin, K. Rittner and **V. Ya. Ushakov**	149	Dendrite formation in crosslinked polyethylene in pulsed electric fields
Ya. N. Colley and L. P. Soboleva	159	Discharge of a capacitor with a "viscous" dielectric through a resistance
	i	List of papers not translated from *Elektrichestvo* Nos 7–9, 1995

Yu. A. Blinov, A. S. Vasil'yev, B. Ya. Kachanov and **B. V. Kogan**	1	Currents and voltages in industrial power networks when supplying large vacuum tube generators
A. S. Boriskin, N. I. Gusev, V. A. Zolotov, V. I. Zolotovskii, A. S. Kravchenko and **A. S. Yuryzhev**	19	Transportable lightning stroke simulators based on magnetic cumulative generators
F. A. Zykin and **M. K. Kazakov**	27	A method for measuring large direct currents
Yu. N. Starodubtsev	37	Voltage transformers with ring cores of GAMMAMET 411 type magnetic steel
A. V. Ivanov-Smolenskii, Yu. V. Abramkin, M. A. Avanesov and **J. M. Ouchi**	47	Electromagnetic forces acting on the magnetic core elements and current-carrying conductors in the slot area of an electrical machine
O. A. Teslenko and **S. V. Shirinskii**	69	Analysis of an equivalent circuit for the magnetic circuit of a non-salient pole synchronous machine
V. V. Klepikov and **A. I. Gul'**	77	Multivariable optimization of the parameters of double-integrating digital–analog electrical drive systems
S. A. Amelin, A. A. Novikov, K. N. Stroyev and **N. N. Stroyev**	85	Modification of the Giles–Atherton model to take account of the frequency properties of ferromagnetic materials
Ye. K. Lokhanin	93	A method for analysis and calculation of long-term transient conditions
V. A. Kuznetsov and **A. I. Fedotov**	109	Analysis of a synchronous machine with a harmonic excitation system by means of a discrete current method
A. V. Glazenko, Ya. B. Danilevich and **A. A. Karymov**	123	Digital modelling of thermal and mechanical processes in electrical machines
V. A. Rozanov	135	Three-phase booster transformers
E. I. Dubovoi and **M. S. Mikhailov**	143	Approximate formulae for calculating the conductivity and dielectric permittivity of weakly ionized air plasma
Tcan Ky Phuc	151	Analysis of electric field distribution in high-voltage solid insulation with gas inclusions
	i	List of papers not translated from *Elektrichestvo* Nos 10–12 1995
